WORK EXPERIENCE

Cogo Labs

Cambridge, MA

Web Engineer

November 2011 – Present

- Led front-end development for website prototypes, including one app with XXX,XXX users
- Supported social team in implementing A/B tests to maximize new-user signups by reducing page load, manipulating signup-flow, and customizing content via url parameters
- Overhauled site-starter scaffolding with an universal React-Redux architecture on Webpack
- Created a library of composable React components used on a variety of Cogo projects
- Built complex user-interface tools, including D3 charts and custom tables to support data-analytics for our analysts teams as well as revenue simulations for accounting

PricewaterhouseCoopers LLP

Boston, MA

Assurance Associate

September 2011 – March 2014

- Led walkthroughs of major accounting cycles that required dozens of interviews with senior members throughout the client organization
- Top-performer in PwC's annual performance review for both years at the company; received an 'exceeded expectations' in all performance reviews for individual client engagements for the previous year
- Assisted with the development of the overall audit approach for revenue and inventory for a multinational sports equipment manufacturer with over \$1 billion in sales
- Tailored audit procedures to meet changing public accounting standards by incorporating and working with PwC specialists in the areas of journal entries, taxes, and investment valuations
- First associate in starting class to pass all Certified Public Accountant examinations
